Message from the Guest Editors

Dear Colleagues,

This Special Issue's research areas may include (but are not limited to) the following:

- Effective strategies for improving the energy efficiency, reducing the environmental impact, and encouraging the integration of Renewable Energy Sources (RES) for different types of buildings and users;
- Nearly Zero Energy Buildings (NZEB), Positive Energy Buildings (PEB), and Positive Energy Districts (PED);
- User-centric solutions in the building sector with which to drive the transition towards a sustainable and decarbonized society and economy (i.e., inducing lasting behavioral changes towards sustainable living);
- Smart systems for the flexible management of the energy interconnections between buildings to promote energy equity and accessibility;
- Efficient and smart urban energy planning at the cluster-of-buildings level, in order to identify possible methods, strategies, and overall solutions for the energy upgradation and decarbonization of urban areas.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
