

Hydrological Response to Climate Change in Arid Land

Guest Editors:

Prof. Dr. Dongwei Liu

School of Ecology and
Environment, Inner Mongolia
University, Hohhot 010021, China

Dr. Entao Yu

Institute of Atmospheric Physics,
Chinese Academy of Sciences,
Beijing 100029, China

Dr. Qian Xia

School of Water Resources and
Hydropower Engineering, Wuhan
University, Wuhan 430072, China

Deadline for manuscript
submissions:

closed (15 August 2023)

Message from the Guest Editors

Original research articles and reviews are welcome for this Special Issue. Research areas may include (but are not limited to) the following:

- Climatic and hydrological change in arid regions;
- Climate and hydrological modeling;
- Future climate change projection;
- Hydrological response to climate change;
- Long-term future water resource projection;
- Short-term flood prediction;
- Impact of water balance in arid basins and feedback of extreme climate on hydrological processes;
- Interaction between the atmospheric and hydrological processes;
- Hydrological effects of land use and land cover change;
- Regional water balance changes in response to climate change;
- Extreme events in arid regions.

We look forward to receiving your contributions.

Prof. Dr. Dongwei Liu

Dr. Entao Yu

Dr. Qian Xia

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
