### Message from the Guest Editors

As the tourism industry is currently on hold due to COVID-19, the research community has an ideal opportunity to examine its socio-cultural, economic, and environmental consequences more thoroughly. Scholarly inquiry can embrace this lull in a way that contributes to a more responsible tourism future. Please join us at this important time by contributing new information and ideas to the literature in sustainable tourism, events, hospitality, recreation, and sports.

We aim to attract a range of potential interdisciplinary contributors to make this issue reflective of the totality of the tourism super sector. Welcome disciplinary perspectives include business, commercial recreation, culinary arts, destination marketing, economics, education, ecology, entrepreneurship, environmental sciences, gaming entertainment, hotels and resort administration, land use, sociology, psychology, parks and recreation, sports management, wildlife conservation, and urban and regional planning.
