Deadline for manuscript submissions:

31 August 2024

Message from the Guest Editor

Dear Colleagues,

In economic development and business organization, sustainability has become a topic of major interest. A key driver for sustainability is represented by innovations in products and processes. Innovative practices must focus on reconciling the financial and economic performance of companies with the social and ecological interests of the people. The adoption and implementation of sustainable performance in the economy require a continuous process of innovation and adjustment to the constantly changing environment.

Green innovation, eco-innovation, sustainable innovation, etc., are relatively recent concepts describing the nature of the innovative processes that drive the economy. The progress of the new technologies and the advances in digitalization are enabling more innovation, but they are creating more concerns and challenges for society as well.

This Special Issue welcomes conceptual and empirical articles, including reviews and short communications, oriented towards investigating the complex nexus between innovation, performance, and sustainability at all levels of management.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
