Management, Ritsumeikan  
University, Kyoto 603-8577,  
Japan

Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editor

A health management service, mobile health, is becoming a reality in the context of mobile technology. However, it raises privacy concerns, and makes the analysis a black box. In order to solve these technical and social problems, this Special Issue will include but is not limited to:

- Conceptual propositions on technology and innovation for sustainability and social implementation of mHealth and Healthcare AI;
- Systematic reviews on technology and innovation for sustainability and social implementation of mHealth and Healthcare AI;
- Methodology for the analysis, design, and implementation of innovative technology, products/services, and systems for sustainability and social implementation of mHealth and Healthcare AI;
- Practices and case studies on technology and innovation management for sustainability and social implementation of mHealth and Healthcare AI.

We expect that this Special Issue will serve as a forum for anyone with an interest in and passion toward the realization of a sustainable society through technology and innovation.

an Open Access Journal by MDPI

## Editor-in-Chief

Faculty of Engineering and  
Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
