Message from the Guest Editors

Dear Colleagues,

The Special Issue of the journal *Sustainability*, “Far More than Meets the Eye: Microplastics Pollution from Terrestrial to Marine Environment and Its Risks”, seeks original contributions in the field of all bio-geoscience disciplines concerned with microplastics studies, from investigation, detection methods, ecological risk evaluation, environmental impact, and/or toxicology. In particular, the following aspects are encouraged:

- 1) Distribution of microplastics from both terrestrial and marine environments, preferably the ones with substantial sampling sizes, e.g., a large quantity of water/sediment samples, over dozens of sampling sites;
- 2) The fate of microplastics in the terrestrial/marine environment;
- 3) The toxicological effects and environmental impact of microplastics on terrestrial/marine organisms, e.g., microbial communities, plants, and animals.

We are looking forward for your contributions.

Keywords: microplastics; terrestrial and marine environment; distribution; transportation; environmental fate; biofilm formation; toxicological effects

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
