Message from the Guest Editors

On a practical level, the planning, monitoring, and measurement of social, economic, and environmental impact is a relatively underexplored research field both in terms of process and results achieved. Legal constraints and regulations could greatly vary, especially using geographical criteria, and the management of social, economic, and environmental impacts strictly depends on the nature of the business (private companies, public initiatives, or public–private initiatives).

The scope of this Special Issue is to shed light on the monitoring of social and economic impacts linked to a megaproject that is a topic mainly explored by project management literature. Holistic and multidisciplinary studies on megaprojects' social responsibility are rare as scholars have mostly explored that topic using a single perspective.

Considering that megaprojects have different peculiarities, the rationale of this Special Issue is to collect studies that can serve as a theoretical advancement and a possible guide for practitioners involved in megaprojects.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
