Deadline for manuscript  
submissions:

**closed (30 June 2022)**

### Message from the Guest Editors

Dear Colleagues,

The International Conference “Natural and Cultural Heritage in Forests—Contemporary Challenges” will be held online on December 9<sup>th</sup> and 10<sup>th</sup> 2021, with the aim to bring together researchers interested in the broadly defined conservation and management of natural and cultural heritage resources in forests.

In recent years, as a result of intensive socioeconomic transformations, there has been a phenomenon of unification of space and disappearance of cultural identity, as well as impoverishment of landscape and decline in biodiversity. Natural and cultural heritage are development assets that offer unique development opportunities and a high-quality living environment (EU Territorial Agenda 2030). Natural heritage refers to natural features, geological and physiographic formations, and designated areas that provide habitat for endangered animal and plant species, and places of natural value for science, conservation, or natural beauty (UNESCO 2009).

We encourage an interdisciplinary perspective on the issues of contemporary challenges related to the conservation of natural and cultural heritage in forests.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
