### Message from the Guest Editors

The focus of this Special Issue will be on physical activity and brain health in all populations in contemporary society, specifically on providing evidence that shows the greater importance of physical activity over psychological, brain, and/or cognitive health in pre-schoolers, children, adolescents, adults, and older-adults. Therefore, this Special Issue “Physical Activity and Brain Health in Contemporary Society: Perspectives for Sustainability” welcomes original, review, and meta-analyses studies in any subject area related to physical activity and brain health (e.g., psychological health, brain, and cognition) in all populations.
