100 44 Stockholm, Sweden

Prof. Dr. Per Erik Eriksson

Department of Civil,
Environmental and Natural
Resources Engineering, Luleå
University of Technology, 97187
Luleå, Sweden

Message from the Guest Editors

The guest editors of this Special Issue would especially welcome contributions that explore and discuss aspects such as: the combination of sustainable requirements and procurement strategies during implementation; client competences and strategies; and system level structures and policies. More generally, we appreciate contributions that further our understanding within strategic, organizational, practical, behavioral and/or instrumental aspects of sustainable procurement in the built environment.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
