Engineering, George Mason
University, Fairfax, VA 220130,
USA

Prof. Dr. Stephen M. Remias

Civil and Environmental
Engineering, Wayne State
University, Detroit, MI 48202, USA

Message from the Guest Editors

The objective of the Special Issue is to publish papers that provide novel ideas about improved data visualization and performance metrics to support sustainable transportation practices on a regional level. To derive sustainability metrics, it is expected that data sets might include demographic, economic, land use, speed, level of service, environmental, and cultural datasets.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
