

Advances in Sustainable Development and Renewable Energy: Economic, Policy and Environmental Impact

Guest Editors:

Dr. Jacek Brożyna

Department of Quantitative Methods, The Faculty of Management, Rzeszow University of Technology, 35-959 Rzeszow, Poland

Prof. Dr. Christian Lis

Department of Econometrics and Statistics, Institute of Economics and Finance, Faculty of Economics, Finance and Management, University of Szczecin, ul. Mickiewicza 64, 71-101 Szczecin, Poland

Deadline for manuscript submissions:

closed (30 June 2023)

Message from the Guest Editors

The topics covered in this Special Issue may cover broadly understood issues related to energy, in particular renewable energy and its impact on the natural environment, as well as on the quality of life. Articles presenting the impact of climate policy and renewable energy on energy prices and CO₂ emission allowances, as well as on energy security, will be interesting. We are also eager to find out if renewable energy from solar and wind power plants (onshore and offshore) is able to ensure the continuity of the energy supply in various weather conditions, or should some solid fuel power plants be kept? In December 2012, the directive on energy efficiency entered into force in the European Union. This is another interesting approach that shows that energy demand should not be met only by increasing energy production but also by efficient energy use.

The issues presented above are only a proposal, and other topics related to sustainable development and energy will be welcome. Authors also are not limited to any specific country or region.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
