

Energy Transition, Tourism and Sustainable Management of Ecosystems

Guest Editor:

Prof. Dr. Theocharis D. Tsoutsos

Renewable and Sustainable Energy Systems Lab, School of Chemical and Environmental Engineering, Kounoupidiana Campus, Technical University of Crete, 73100 Chania, Greece

Deadline for manuscript submissions:
closed (15 February 2023)

Message from the Guest Editor

Dear Colleagues,

Sustainability is well-connected with the protection and sustainable development of ecosystems and the biodiversity that constitutes them. However, human activities are the cause of irreversible harm to such ecosystems in multiple scenarios.

The scope of this Special Issue is to create an “umbrella” under which impacts and benefits may be investigated and assessed in a variety of situations with different characteristics, such as the type of sustainable development project or the type of the sensitive ecosystem under review.

Research areas may include but are not limited to:

- Large power generation installations and their impacts on ecosystems;
- Green energy infrastructures;
- Marine power systems;
- Sustainable tourism in coastal regions;
- Energy transition through sustainable development;
- Carrying capacity of sensitive ecosystems;
- Green tourism—ecotourism and circular economy;
- Sustainable development in Natura 2000 regions;
- Local plans for sustainable tourism management;
- Local/regional co-creation plans to meet energy transition.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
