Deadline for manuscript submissions:

closed (31 May 2021)

Message from the Guest Editor

This special issue focuses on bringing together contemporary research that provides new insights into how sustainable development can be further embedded into regional development policy and practice. Papers that robustly engage with contemporary scholarship and provide new empirical evidence from case studies are particularly encouraged.

While the scope for papers is purposefully broad, contributors might consider that addressing one or more of the following questions:

- What are the contemporary approaches to sustainable regional development. Papers might use comparative case studies to focus on matters such as smart specialisation, clustering or knowledge economies?
- How can social innovation or social entrepreneurship underpin sustainable regional development?
- What are best practice indicators and approaches for the evaluation of sustainable regional development?
- What governance structures are effective in supporting the embedding of sustainable development into regional development practices?
- What type of locally lead initiatives can promote broader sustainable regional development?

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
