Deadline for manuscript submissions: closed (20 December 2020)

Message from the Guest Editors

Dear Colleagues,

Few scholars would disagree that the sustainability of our food consumption is an important goal for humanity, and many strategies have been proposed to achieve this sustainability. Prominent among these strategies is the concept of short supply chains, but research into the potential of short supply chains for solving issues of sustainability in agriculture and food authenticity is far from complete. This Special Issue welcomes contributions that examine short supply chains and their surrounding sustainability issues. Research subjects can include, but are not limited to:

- The areas where sustainability is positively impacted by shortening supply chains, such as reducing carbon emissions, stimulating local economies, etc.
- Impacts of shortening supply chains on our consumption behavior and the impact of short supply chains compared with other aspects of consumption, such as seasonal consumption, dietary changes, etc.

Dr. Robert Home Mr. Jan Landert *Guest Editors*

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. Sustainability publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
