Deadline for manuscript  
submissions:

**closed (15 November 2023)**

### Message from the Guest Editor

With the continuous development of urbanization, the trend of an aging population, and the threat of global warming, sustainability has become more and more critical. In this Special Issue, we seek cutting-edge research related to sustainability issues in smart cities and intelligent transportation systems. Although all research papers relevant to sustainability are encouraged to be submitted to this Special Issue, we are especially interested in theories and applications that make our cities and transportation systems more efficient, more cost-effective, and more friendly to (senior) citizens. In particular, theoretical and applied research works that will be considered by the Special Issue include, but are not limited to, the following topics:

- Smart building, smart home, smart grid technologies, and green communications technologies that reduce energy consumption;
- Renewable energy applications in smart cities;
- Future public transportation systems and freight transportation systems;
- Smart home, robotics technologies, and smart healthcare technologies that improve the well-being of all citizens.

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
