

Space for Sustainability: Using Data from Earth Observation to Support Sustainable Development Indicators

Guest Editors:

Prof. Dr. Stephen Morse

Chair in Systems Analysis for Sustainability in the Centre for Environment and Sustainability, University of Surrey, Guildford, Surrey GU2 7XH, UK

Prof. Dr. Richard Murphy

Centre for Environment and Sustainability, University of Surrey, Guildford GU2 7XH, UK

Ms. Ana Andries

Centre for Environment and Sustainability (CES), University of Surrey, Guildford, Surrey GU2 7XH, UK

Deadline for manuscript submissions:

closed (31 December 2021)

Message from the Guest Editors

The editors welcome contributions that explore progress to date and how this informs potential for future use of EO derived data for many aspects of SD and that provide cutting-edge examples of where EO can provide insights, particularly for a number of the socio-economic dimensions of SD that have proved to be challenging to assess. This could include, but is not limited to, the following applications:

- Applications of EO in tracking the state of socio-economic issues at sub-national, national and regional levels;
- Integration of EO with survey data;
- Filling traditional data gaps using EO data;
- Assessing inequalities, poverty, food insecurity, water scarcity using EO data

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
