

Statistics and Econometrics of Environment and Climate Change

Guest Editors:

Prof. Dr. Alessandro Fassò

Department of Economics,
University of Bergamo, Bergamo,
Italy

Dr. Paolo Maranzano

Department of Economics,
Management and Statistics
(DEMS), University of Milano-
Bicocca, 20126 Milano, Italy

Deadline for manuscript
submissions:

closed (15 July 2023)

Message from the Guest Editors

We are inviting researchers to submit original papers. Original papers in the fields of geostatistics, spatial econometrics, data science, and time-series analysis, including case studies on environmental data and comprehensive review papers considering both theoretical and empirical approaches, are welcome in this Special Issue. In particular, articles focusing on the study of air, soil, and water quality in terms of pollution, studies on the effects of agricultural activities on air quality, and analyses of environmental monitoring and protection systems will be considered.

Relevant topics to this Special Issue include, but are not limited to:

- Environmental statistics and econometrics;
- Environmental data science;
- Spatial and spatiotemporal statistics;
- Spatial data deep learning;
- Time-series analysis;
- Statistical machine learning;
- Air quality monitoring and control;
- Air, soil, and water pollution;
- Agriculture emissions.
- Climate Change and mitigation policies
- Policy impact assessment

We look forward to receiving your contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
