**Prof. Dr. Prasad KDV
Yarlagadda**

School of Mechanical, Medical
and Process Engineering, Science
and Engineering Faculty,
Queensland University of
Technology, George Stret,
Brisbane, QLD 4001, Australia

**Prof. Dr. Immanuel
Edinbarough**

Department of Informatics and
Engineering Systems, University
Of Texas Rio Grande Valley,
Brownsville, TX 78520, USA

Deadline for manuscript
submissions:
closed (31 October 2022)

Message from the Guest Editors

Customers of the global market constantly demand new sustainable products based on nanotechnology, recycled or by-product materials, hierarchical composite materials, remanufactured or re-engineered products. This Special Issue of Sustainability will address and consolidate new research findings that help the industry make informed decisions regarding sustainable materials with the use of new technologies or materials to improve their performances and overall efficacy in servicing their global customers.

Original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

1. Bio and renewable materials;
2. Sustainable Engineered Materials;
3. Composite materials with natural fibres;
4. Life cycle assessment for sustainable materials;
5. Biodegradable polymers;
6. Sustainability indicators;
7. Sustainable materials for medical applications;
8. Sustainable materials in manufacturing applications;
9. Sustainable materials in automotive applications;
10. Recycling of polymers;
11. Waste management;
12. Recycling strategies for composite materials.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
