Dr. Hilde Remøy

Faculty of Architecture and the
Built Environment, Department
of Management in the Built
Environment, TU Delft,
Julianalaan 134, 2628 BL Delft,
The Netherlands

Message from the Guest Editors

This Special Issue covers impacts caused by different chronic and acute crisis factors to gain a deeper understanding of the ways buildings could, and should, be used and managed to support different stakeholders (including households, office workers, owners, renters, occupants, and public and private sector organisations). Papers should cover theoretical aspects and present options and solutions at the space, building, and community level to promote a sustainable resilient built environment.

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
