

Developing 5G/6G Wireless Technologies for Sustainable Communication Systems

Guest Editors:

Dr. Mohammed H. Alsharif

College of Electronics and Information Engineering, Sejong University, Seoul 05006, Republic of Korea

Prof. Dr. Rosdiadee Nordin

Department of Engineering, Sunway University, 47500 Selangor, Malaysia

Prof. Dr. Shehzad Ashraf Chaudhry

Department of Computer Engineering, Faculty of Engineering and Architecture, Istanbul Gelisim University Istanbul, 34310 Istanbul, Turkey

Deadline for manuscript submissions:

closed (31 August 2022)

Message from the Guest Editors

This Special Issue encourages researchers to present original and recent developments in fundamental theory, performance limits, design, management issues, and challenges and promising solutions for sustainable 5G and 6G communication systems. Topics of interest include but are not limited to the following areas:

- Energy-aware design of 5G/6G transmissions and communication systems;
- Wireless energy transfers and energy harvesting for sustainable 5G/6G systems;
- Potential 5G/6G applications toward sustainable development growth;
- Transdisciplinary approaches toward sustainable 5G/6G developments and implementations;
- Application of information theory to the 5G/6G communication systems;
- Big data and edge AI technology as enablers for 5G/6G communication systems;
- Novel interference solutions and resource controls for 5G/6G communication systems;
- Cell-free massive MIMO for 5G/6G communication systems;
- Propagation modeling on millimeter waves and terahertz spectrum;
- High intelligence versus privacy and complexity;
- Three-dimensional integrated communications;
- Ultra-reliable low-latency communications;
- Security and reliability issues with 6G/loT.

an Open Access Journal by MDPI

Editor-in-Chief

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
