Deadline for manuscript  
submissions:

**closed (30 June 2021)**

### Message from the Guest Editor

Dear Colleagues,

*Sustainability* welcomes submission of articles addressing all aspects of sustainability related to Arctic cities. Articles could examine the concept of sustainability as it applies to Arctic cities or focus in on one aspect of sustainability, such as energy usage, treatment of solid waste, or transportation infrasture. We are also interested in articles addressing topics of how to measure sustainability in Arctic contexts. Such articles could examine the various systems of indicators that are currently available or propose qualitative measurements that provide a strong sense of sustainability in Arctic cities. Additionally, we welcome articles that provide case studies of sustainability in specific Arctic cities or provide comparisons among different Arctic cities. Also relevant would be studies that compare Arctic cities to non-Arctic urban areas with an interest in demonstrating how Arctic cities differ from their more southernly counterparts.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
