Deadline for manuscript  
submissions:  
**closed (26 March 2023)**

### Message from the Guest Editors

The implementation of the sustainable development concept remains the greatest challenge to mankind. The general sustainable development goal is meeting the needs of the present without compromising the ability of future generations to meet their own. The global agenda includes:

- The effects of global climate change
- Loss of biodiversity
- The effects of toxic and plastic waste
- Resource use
- Pandemics
- Inter- and intragenerational equity
- Demographic change
- Consumers and consumerism
- Neoclassical economics

The research may address, but is not confined to, the following areas of the sustainable development debate:

- Identification and assessment of smart cities
- Determinants for the development of innovation, digitization, and virtualization of the economy
- Spatial diversity covering poverty, social exclusion, wealth, and social inequalities
- Analysis of sustainable development threats, such as adverse climate, environmental, and epidemic changes (COVID-19); population aging and the resulting dependency ratio
- Location attractiveness of countries, regions, and cities; foreign direct investment (FDI) in sustainable

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
