submissions:

**closed (31 March 2022)**

### Message from the Guest Editors

As municipal solid waste management has become an area of increasing interest and concern, our goal is to publish articles on recent research concepts, models and tools for sustainable municipal solid waste management.

We welcome original research as well as review papers in relevant areas, including: indicators for assessing the sustainability of municipal solid waste management systems, material flow analysis and life cycle assessment, municipal solid waste management logistics, best available technologies in municipal solid waste management, use of artificial intelligence in solid waste management, municipal solid waste treatment technologies, profitability assessment in municipal solid waste management, economic aspects and tools of solid waste management and regional case studies. This issue is aiming to stimulate the consolidation of scientific potential in the field of sustainable municipal waste management by publishing state-of-the art studies that will lead to a deep understanding of the structure of the municipal solid waste management systems according

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
