Message from the Guest Editor

Dear Colleagues,

The COVID-19 pandemic provoked a prolonged crisis and also challenged occupational health services. This Special Issue aims to provide answers to today's major challenges to protect the safety and health of all workers. Occupational health services, mental health and psychosocial support, adequate sanitation, and hygiene and rest facilities should be provided to all workers.

This Special Issue aims at bringing together all the outstanding ideas in recent times in order to provide a forum for sharing research, experiences and reflection on occupational health challenges in this crisis. We welcome papers that either provide empirical studies or theoretical discussion.

“Challenges and Sustainability of Occupational Health” will be an opportunity to support and engaged occupational health services in light of the recent COVID-19 emergency.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
