Dr. Youngjae Han

Railroad Type Approval Team,
Korea Railroad Research
Institute, Uiwang 16105, Korea

Deadline for manuscript
submissions:

closed (31 December 2020)

Message from the Guest Editors

Technology innovations, most notably in the IoT (Internet of Things), Big Data and Artificial Intelligence, have transformed the manufacturing and service industry sectors. In order to achieve sustainable growth, industries focus on understanding mega-trends of technologies and innovations and predicting how technologies and innovations change society and market.

This Special Issue will cover topics including (but not limited to): (1) identifying and forecasting emerging technologies/innovations, (2) management of innovation activities (such as R&D and IP management) for sustainable growth, and (3) the role of governments and policies in promoting innovation activities. Both theoretical and empirical contributions are encouraged.

an Open Access Journal by MDPI

Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
