and Society, Tokyo Institute of
Technology, Tokyo 108-0023,
Japan

Deadline for manuscript
submissions:
closed (26 March 2023)

Message from the Guest Editor

Sustainability is becoming a global agenda and includes complex and wide-ranging issues and goals for sustainable environment and society. Innovation is expected to contribute to the development of a sustainable society and to resolve conflicts amongst different goals and stakeholders. However, our expertise in sustainability and innovation is still at a nascent stage to meet expectations and to realize a sustainable society.

This Special Issue covers a wide range of topics on technology and innovation management related to the scope of sustainability. It will include but is not limited to:

- Conceptual propositions on technology and innovation for sustainability;
- Systematic reviews on technology and innovation for sustainability;
- Methodology for the analysis, design, and implementation of innovative technology, products/services, and systems to realize sustainable society;
- Practices and case studies on technology and innovation management for sustainability.

We expect that this Special Issue will serve as a forum for anyone with an interest in and passion toward the realization of a sustainable society through technology and innovation.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
