Deadline for manuscript submissions:

**closed (31 May 2022)**

### Message from the Guest Editor

Over the last decade plus, we have seen some extraordinary developments in surface transportation, with alternative fueled vehicles, most specifically forms of electricity, taking hold as a powertrain option for consumers to consider in choosing a vehicle. This Special Issue calls for research looking at the impacts of the development and adoption of electric vehicles for transportation and sustainability. It seeks studies reporting on various aspects of factors impacted by the proliferation of electric (or any alternative-fueled) vehicles in passenger or commercial transportation, and in any sector related to transportation.

- electric vehicles
- sustainability
- energy use
- impacts
- adoption
- travel behavior
- mode choice
- alternative fuels

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
