Message from the Guest Editor

Dear Colleagues,

Traditionally, the transportation field has mainly focused on transportation planning and traffic engineering to optimize the efficiency of the system, while traffic safety has been recently considered an important topic in transportation. Traffic safety and transportation planning had been independently explored for a while.

The focus of the special issue is to integrate traffic safety and transportation planning. There has been few effort to simultaneously consider traffic safety and planning (including travel behavior) in the literature. The special issue aims to share innovative ideas about the integration of transportation planning and traffic safety (possibly considering current challenges in transportation) and disseminate useful and practical knowledge and information to practitioners and researchers.

Few research studies have considered both traffic safety and planning (or travel behavior) in the existing literature. The special issue will fill this gap with various ideas to integrate them.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
