Message from the Guest Editor

I have the honor to invite you to publish in a Special Issue of *Sustainability* on ionic liquids. The aim of this Special Issue is to collect a series of research articles, reviews, or short communications that allow one to emphasize the high interest of this new trend in ionic liquids. Ionic liquids perfectly fit into the strategy of sustainable development, which is why the choice of this journal in the context of sustainable chemistry is obvious, at least to me.

The Special Issue will be an open forum for researchers to share their investigations and findings in this important field and, thanks to the open access platform, increase their visibility in the whole scientific, industrial, and business area. Contributions to this issue may cover all aspects of synthesis, properties, and applications of ionic liquids, offering new methodologies or insights. Same as the use of ionic liquids, the topics covered in this issue are practically unlimited. I hope you will honor my invitation and that we will be able to prepare this edition together.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
