Message from the Guest Editors

Sustainable development requires significant transformations in urbanized spaces in order to make them clean energy and food producers in a circular process. At the same time, urban planning and government strategies require support for increasing green public spaces, green public transportation, and improved participatory and inclusive processes. Moreover, sustainable urban development requires enhanced inclusive and sustainable urbanization and proactive measures to make urban areas more resilient to natural and human risks in a wider context of strategy-based regional development. In this context, this Special Issue welcomes the following kinds of contributions:

- (a) Evidence-based papers illustrating and discussing the implementation of Sustainable Urban Development and Regional Management.
- (b) Theoretical papers that propose conceptual visions and appropriate methodologies and indicators to design, implement and assess Sustainable Urban Development and Regional Management processes and related policies.
- (c) Foresight papers showing future paths of Sustainable Urban Development and Regional Management for unhandled sustainable development at various geographical scales

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
