submissions:

**closed (31 March 2025)**

### Message from the Guest Editors

Is it realistically possible to pursue sustainable cities objectives by simultaneously looking at urban and environmental quality, economic performance, cultural vibrancy, social cohesion, and efficient functional relationships?

Researchers and scholars are invited to bring into the discussion new methods and approaches to the topics of urban equality and city sustainability. We welcome contributions based on a plurality of methods: quantitative, historical, qualitative, and conceptual. We are oriented to the policy implications of empirical research and theoretical advancement on the definition and understanding of the sustainable city concept. We are interested in an economic geography approach to urban inequalities, particularly the analysis of transformation processes and their socioeconomic impacts in urban areas; the relationships between local economies and urban policies; and the spatial mapping of economic, social, environmental, political, and cultural aspects that are useful for analyzing the performance of cities.

We look forward to receiving your contributions.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
