Deadline for manuscript  
submissions:

**closed (15 March 2023)**

### Message from the Guest Editors

Cities are at the center of human activity and facilitate the concentration of the population, resources, and economies. At present, the world's urbanization rate has exceeded 55%, showing a trend that is continuing upward. The increasing complexity of urban operational systems has ushered in unprecedented opportunities and new challenges. Natural disasters, technological accidents, public health, social security, and other issues can have a sustained impact on urban safety and security.

This Special Issue aims to explore the identification, analysis, assessment methods, and technologies of urban safety and security (covering different aspects such as urban risk, vulnerability, resilience, emergency capacity, etc.). Original research articles and reviews are welcome in this Special Issue.

**Keywords:** urban safety and security; risk management; vulnerability assessment; resilience assessment; emergency management; multi-hazards coupling; disaster reduction and control; modeling and simulation; system development; monitoring and early warning

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
