### Message from the Guest Editors

Dear Colleagues,

The scope of the current Special Issue is the latest highlights of the recycling of concrete and recycled materials in concrete. It will therefore cover recycled aggregates from concrete, alternative materials used in concrete and the potential technical and environmental constraints faced in a circular life. The latter is important because new products need to fulfil user criteria in their primary service life and the following recycling life cycle.

Deadline for manuscript  
submissions:

**closed (30 August 2022)**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
