

Special Issue

International Economy, Business Ecosystems, and Entrepreneurship: Implications for Sustainable Energy Development

Message from the Guest Editors

This Special Issue aims to investigate how the evolving international economy, the dynamics of business ecosystems, and entrepreneurial transformations interrelate to shape sustainable energy development. We welcome submissions that explore any dimension of this macro–meso–micro nexus—ranging from international economic analyses of energy security and regulatory frameworks to ecosystem-level collaborations to firm-level innovation and entrepreneurship. We aim to uncover how stakeholders can more effectively integrate sustainability goals into practical energy solutions. This Special Issue will supplement the literature by taking a more holistic lens—integrating the international economy, business ecosystems, and entrepreneurship perspectives together. In doing so, it will shed new light on the ways that these levels interact to advance (or hinder) sustainable energy goals. We invite both conceptual and empirical contributions that reveal how these multi-layered relationships can be harnessed to produce more inclusive, resilient, and innovative energy futures. We look forward to your submissions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
