

Special Issue

Sustainable Technological Entrepreneurship, Innovation and Economic Development

Message from the Guest Editors

In the age of rapid technological advancement, sustainability and entrepreneurship go hand in hand in sculpting the future of economic development. Sustainable Technological Entrepreneurship, Innovation, and Economic Development serve as the underpinning pillars that ensure not only economic growth, but also a balance with our natural environment and societal wellbeing. The role of sustainable technologies in fostering entrepreneurship has come to the forefront of scientific discourse, acknowledging its capability to transform economies while addressing environmental and societal challenges. The primary goal of this Special Issue is to provide a comprehensive platform to foster a deeper understanding of how technological entrepreneurship can be intertwined with sustainable practices to propel economic development forward, ensuring that it aligns with the ethos of the 21st century. This Special Issue sheds light on an area that amalgamates technology, entrepreneurship, and sustainability, a triad that is instrumental in shaping the economic paradigms of tomorrow.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
