# Enterprise Performance, Teamwork, and Team Management: A Perspective of Sustainable Enterprise and Public Organizations Development

### Message from the Guest Editors

The successful development of a contemporary enterprise or an organization in an environment that is characterized by continuous changes depends a lot on teamwork, efficiency, and the effectiveness of all those who form the so-called micro-environment of the organization. Contemporary enterprises and organizations, both public and private, face challenges all the time in the frames of competition and new conditions created in the economies of the countries. The financial growth of the organizations depends to a high degree on the continual training of the staff, sustainable management of resources, sustainable information technology, human resources management and administration, the organizational culture, and the educational leadership.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
