

## Special Issue

# Renewable Energy and Sustainable Energy Systems

### Message from the Guest Editors

This Special Issue aims to communicate the most interesting and relevant critical thinking in renewable and sustainable energy systems, promote and disseminate knowledge on the various topics and technologies of renewable and sustainable energy systems and components, and share problems, solutions and novel ideas and technologies to support sustainable development and the transition to a low carbon future. This Special Issue will publish papers on scientific research, technology development, engineering policy, and management studies related to the general field of renewable and sustainable energy systems. Research areas may include (but are not limited to) the following: Source—fossil fuels, geothermal, hydrogen, hydropower, nuclear, marine and ocean, solar and wind. Energy—energy efficiency, energy conversion, energy management, energy sustainability, energy policy, and economics. Applications—buildings, industry, transport, and urban community. Utilization—batteries, supercapacitors, fuel cells, and energy storage technology. System—system reliability, systems operation.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
