

Special Issue

Application of Emerging Techniques and Sustainable Quality Management in the Architectural, Engineering, Construction (AEC) and Facilities Management Industries

Message from the Guest Editor

This Special Issue aims to collate new ideas of research into green buildings and the application of emerging techniques and sustainable quality management in the architectural, engineering, construction (AEC), and facilities management industries. Also, this Special Issue aims to provide an advanced forum for studies related to green buildings and emerging techniques. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Green buildings and application of emerging techniques;
- Sustainable quality management;
- Emerging techniques and sustainable quality management in the architectural, engineering, construction (AEC), and facilities management industries;
- Sustainability in architectural, engineering, construction (AEC), and facilities management industries;
- Green construction;
- Green buildings and facilities management.
- I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
