

Special Issue

Digital Transformation, Entrepreneurship and Sustainable Business Models

Message from the Guest Editors

This Special Issue is devoted to a comprehensive examination of subjects regarding technology and innovation management within the context of sustainability. It encompasses, though not restricted to, the following: Conceptual propositions regarding technology and innovation as vehicles for sustainability; Systematic critiques and evaluations of technology and innovation in the service of sustainable ends; Methodological approaches to the analysis, conception, and actualization of innovative technology, products/services, and systems, to realize a sustainable society; Practices and illustrative case studies exploring technology and innovation management in the pursuit of sustainability. We welcome papers that provide an exhaustive examination of the present state, grounded in credible analysis and tangible evidence, whilst also delineating potential solutions, illuminated by incisive ideas and prospects with deep insights and ethical perspectives. We shall hold in high regard contributions that address specific subjects through interdisciplinary and transdisciplinary lenses. Papers employing both qualitative and quantitative methodologies are also welcome.
