High Added-Value Molecules Recovered from Agri-Food Waste and by-Products

Message from the Guest Editors

Until a few decades ago, food waste was considered neither a cost nor a benefit, usually discarded to landfills, sent for composting, or used as animal feed. The negative perception of these by-products and, implicitly, their deficient management led to environmental degradation and especially to significant loss of valuable material that could otherwise be exploited as food, fuel, and a wide variety of additives. This Special Issue aims to provide a wide range of viable alternative models that combine food production with an efficient valorization strategy for waste and by-products, minimization of energy consumption, and environmental protection. Researchers in these fields are invited to propose original research articles as well as relevant state-of-the-art reviews to be published in this Special Issue of *Sustainability*.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
