

Topical Collection

Impact of COVID-19 on the Environment, Energy and Economics

Message from the Collection Editor

The COVID-19 (Novel Coronavirus—Sars-Cov-2) pandemic has been declared a global pandemic by the World Health Organization due to its devastating impact on humanity. In line with the SDGs and the ongoing COVID-19 pandemic, we invite papers on the following topics: 1) Chemicals—waste management—water and sanitation and COVID-19; 2) COVID-19 and the environment: transmission via surfaces, air, water, soil—detection of COVID-19 virus—the impact of environmental factors on transmission, survival, and infectivity such as wetness, dryness, temperature, relative humidity, sunlight, and air pollution (particulates, bioaerosol); 3) COVID-19 and oceans and blue economy—biodiversity and wildlife; 4) COVID-19 and economic growth, green recovery/greening economies; 5) Effective containment and preventive options and strategies for present and future spread, i.e., face masks, hand wash, disinfection technologies in public places and healthcare facilities; 6) Forecasting short- and long-term impact of the COVID-19 pandemic owing to current intervention and preventive measures.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
