

Special Issue

Integrating Climate Change Adaptation and Disaster Risk Reduction in Cities: Approaches, Methods and Tools to Overcome the Implementation Gap in Urban Resilience

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Methods and tools for DRR and CCA integration in planning/design with a multi-hazard and multi-scale perspective (regional to local, city to neighbourhood, etc.);
- Multi-hazard probabilistic simulation models, vulnerability analysis and risk assessment methods
- Multi-hazard resilient design of buildings and infrastructure through “all-hazards”
- Exploring the application potential of innovative technologies and nature-based solutions;
- Exploring and measuring the multiple social, economic, environmental co-benefits of integrated DRR and CCA strategies in cities;
- Improving current standards and regulations to foster public and private investments in multi-hazard resilience;
- Novel policy and governance mechanisms to achieve DRR and CCA integration at the national and sub-national levels
- Achieving environmental justice by streamlining “top down” and “bottom up” policies

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
