Improving Knowledge Transfer and Innovation Management in Sustainability Era

Message from the Guest Editor

The goal of this Special Issue is to compile high-quality contributions that deepen and advance understanding of the role of quality knowledge transfer and innovation management in the age of sustainability. This Special Issue welcomes contributions on innovations that improve the quality of the development and transfer of knowledge and skills or that can be used to develop knowledge at a higher level. Contributions with a wide range of epistemological, conceptual, and methodological backgrounds are expected to shed light on knowledge transfer and innovation learning in the context of sustainable development, filling a gap in the literature. Thus, the Special Issue also aims to promote theoretical and practical innovation and knowledge in a range of fields, including education, industry, business, science, and engineering. We look forward to receiving your contributions.
