

Special Issue

Innovative Education for Sustainable Development and Evolution

Message from the Guest Editors

This Special Issue focuses on diversified, innovative education for sustainable development and evolution on an individual, organizational and societal level.

Materially, the topic of interests include the following:

- Innovative education in diversified applications.
- Holistic education's evolution in diversified applications.
- STEM education and evolution in diversified applications.
- Various technological innovation education in diversified applications.
- Environmental innovation education in diversified applications.
- Human behavior innovation education in diversified applications.
- Public health innovation education in diversified applications.
- Spot innovation education in diversified applications.
- Sexuality innovation education in diversified applications.
- Sustainable innovation education in diversified applications.
- Sustainability science innovation education in diversified applications.
- Business innovation education in diversified applications.
- Management innovation education in diversified applications.
- Industrial innovation education in diversified applications.
- Other diversified applications of innovative education.
