

## Special Issue

# Municipal Solid Waste Management in a Circular Economy

### Message from the Guest Editor

In this Special Issue, the management of municipal solid waste is studied from the perspective of the circular economy in order "to close the loop" and minimise greenhouse gases. A central issue concerns the study of safety and quality requirements for recycled materials and "end of waste" criteria. Papers of both fundamental research and applied research related to problems of interest to researchers, professionals and public officials involved in the management of municipal solid waste will be taken into consideration...

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
