Role of Religion in Sustainable Consumption

Message from the Guest Editor

While much research has examined sustainable consumption, one key component that prior research has failed to recognize is religion. With over 80% of consumers worldwide adhering to some sort of religious belief, it seems critical to understand how this core value system influences sustainable consumption and may provide insight to promoting environmental preservation. This Special Issue seeks papers that explore areas such as (but not limited to) the following:

- Comparison studies among different religious affiliations and different countries on sustainable consumption, particularly in exploring minority vs. majority religion effects;
- Identifying how consumers reconcile conflicts between religious and cultural messages regarding sustainability that drive consumption decisions;
- Exploration of how different dimensions of religiosity differentially influence sustainable consumption;
- Comparison of dominion and stewardship perspectives among religious consumers and how these are changing over time

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
