

## Special Issue

# Electric Power Equipment Sustainable Development

### Message from the Guest Editors

This Special Issue aims at attracting original high-quality papers and review articles focused on environmental friendly electrical equipment, condition assessment of power equipment, new energy equipment, efficient management and economic operation for power equipment, data analysis, and data-driven applications for power equipment sustainability. We willingly welcome all researchers to consider technological advances in electric power equipment sustainable development technologies, and, further, to contribute to sustainable growth of the power system. Prospective authors may submit contributions related to (but not limited to) the following:

- Development of environmentally friendly and low-carbon electric power equipment;
- Long-term operational sustainability of electric power equipment;
- Reliability and economy of new energy electric power equipment;
- Electric power equipment fault detection and condition assessment;
- Efficient management and economic operation of electric power equipment;
- Life cycle cost management for electric power equipment;
- Data analysis and data-driven applications for electric power equipment sustainability;

---

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
