

## Special Issue

# Sustainable Sport and Physical Activity Education

### Message from the Guest Editors

The purpose of this special issue is to introduce the latest research on the sustainability of physical education and physical activities in schools. It includes sustainability in consideration of various environments in PE, physical activities and exercise training, and how the field coaches and teachers teaching. This special issue includes studies on the sustainability of sports activities for each age group or sports, as well as studies on sustainability in physical activity for adults. It contains various fields such as psychological, physiological, coaching and training methods, and the planning of physical activity. Authors are invited to contribute to this Special Issue by submitting reviews, original research papers, case studies, and experimental studies that contribute new knowledge related to physical activity, physical exercise and sport science as well as coaching and exercise practice.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
