

Special Issue

Transportation Planning, Mobility Habits and Sustainable Development in the Era of COVID-19 Pandemic

Message from the Guest Editors

The topics covered in the Special Issue may include but are not limited to:

- mobility habits incidence in the spread of the virus
- transport system impacts caused by the COVID-19 and the pandemic restrictions (e.g., behavioral and mobility habits variation, modal share modification, environmental and pollutant impacts)
- methods and models for predicting pandemic impacts on transportation system and travel demand
- sustainable mobility, sharing transport services and micro mobility during and after the coronavirus crisis
- resilience of the transportation system and transport services during the COVID-19 pandemic
- social and economic equity impacts caused by the Coronavirus measures (e.g., mobility restrictions)
- freight transport role and impacts during and after the pandemic
- procurement and distribution of medical and healthcare materials
- supply-chain management of medical, healthcare, and food goods
- planning, policies, projects, best practices and solutions to improve the transportation system, encouraging the urban regeneration and the sustainable development during and after COVID-19

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
